## Mission Statement

January 2018

Psychoanalytic thinking is relevant to the world we live in. The Diversity Committee

strives to raise awareness of bias, prejudice, racism, and homophobia and incorporate it into IPI's offerings. The Diversity Committee aims at fostering an atmosphere of openness and acceptance where learning about diversity issues takes place. Important areas of study at this time are defined as how acknowledged or un-acknowledged diversity affects:

- the patient-psychotherapist relationship;
- group dynamics within organizational settings;
- dynamics within the organizational structure of IPI
