

*IIPT Steering Committee
November 20, 2019 Minutes*

Present: Colleen Sandor and Sue Cebulko (co-chairs) Karen Mohatt, Lea Setton, Pat Hedegard, Stefanie Minen, Michelle Kwintner

We approved minutes from last meeting.

Committee Reports

- a. Candidates: The candidates missed Karen M at the November weekend. They are dealing with some disruptions in the group leader and with ending their GAM group. The candidates felt Carla was containing. At the plenary there was discussion of requirements for advanced candidates. Today we clarified that two weekends each year will be required in addition to a plan that is sensitive to the learning of the individual.

Stefanie will send out due dates to the candidates.

- b. Karen M had nothing new to report for the CPC.
- c. Pat said that all the 5-year reviews had been completed by the FDC. Now there are some write-ups to complete.
- d. Michelle K. said that the curriculum committee was finalizing some readings and a plan to offer one or two seminars on case formulation and write-up. Michelle says we will likely invite one SA to present this time and Colleen spoke about the benefits of inviting two in future years.

Those final details should be completed after the next committee meeting on November 25. Michelle will send to Sue and Colleen for final approval and then send to faculty.

The surveys are not getting completed by all candidates. Colleen and Sue will reach out to candidates about completing them.

- e. Lea S said that at the SA meeting there was discussion of how well the APsaA site visit went. Timing for what comes next is unclear. The SAs are discussing different matters with regard to supervising candidates.

4 colleagues have signed on for a supervision seminar and after some further advertising, more may join. The SAs will continue

to discuss differences in their ideas about case formulation and write-up.

There is a need to clarify the choice of a 3rd supervisor for inclusion in the handbook.

- f. Colleen says there is one new applicant to IIPT and several others are in the wings.

Other Matters

- ❖ Discussion of one candidate's outside analyst and whether she would be approved. We followed with discussion of the procedure in general for approving outside analysts. Sue will contact Stan to find out about past protocols.
- ❖ 2 candidates will set a date for their panels. Colleen, Sue, and Karen will discuss whom to appoint and potential conflicts to avoid.

Stefanie was excused.

- ❖ Discussion of impact of lack of continuity of GAM leaders. Jill has recommended possibility to have the candidates achieve greater continuity in their GAM group and we discussed options.
- ❖ We discussed possible GAM group leaders for the future cohort, including non-IIPT faculty.

Respectfully submitted,
Michelle Kwintner
