Brown bag lunch

The announcement at the plenary did not elicit any interest, so far. We seem to be dealing with "an absence not a presence" and therefore we might need to make our presence more notable. The idea of a "brown bag lunch" resurfaced, to be held at the April conf. Director was not favorable to this idea.

PP will ask Director again.

Addition to programs' evaluation on Diversity

Can another section be added to the conference evaluation (perhaps at the very end) asking for feedback to the div comm? Something like: *The Diversity committee is seeking to enhance our community's learning and understanding of cultural, racial, ethnic, socioeconomic, and gender differences as they unfold in the analytic process. Please make suggestions for specific recommendations in terms of readings, speakers, and topics.*

Conversation with Director

Brown bag lunch issue

Director's response:

I have been asked repeatedly not to fill the lunch hour, so we should think about this. Friday is too packed, but if you want to include this on Saturday, that's okay with me if there's no better option.

Addition to programs' evaluation on Diversity

Director's response:

Yes, I will ask Anna to add this question

Sexuality and gender conf 2019-2020

Director's response:

Conference is not yet planned other than 1 invited speaker for Saturday—Chris Kraft from Johns Hopkins. I plan to be in touch with Committee. Someone from Committee can co-chair.
