

MINUTES PPCP COMMITTEE

SEPTEMBER 22, 2021

Present: Charles Ashbach, Matthew Rosa, Kelly Seim, Suzanne St. John

Absent: Karen Fraley, Anne Taylor

The Program begins on Friday, Oct. 8th for an Intensive consisting of:

A foundational class in supervision, titled: Introduction to Object-relations and the Analytic field of Transformations in Supervision. The class instructor is Charles Ashbach who wrote a paper specifically for this class.

Suzanne St. John will lead a GAM group after each class.

Karen Fraley will teach the second class on the Naming and Containing in Object Relations Therapy and Supervision.

The Co-chairs of IIPT were contacted by the Chair of this committee during the summer to encourage candidates and graduates of IIPT who are providing consultation to psychoanalytic psychotherapists to take this program.

This program has been changed from last year's seminar by: requiring all participants to give a case vignette and including 4 GAM groups in the program.

All program faculty will integrate the reading with their clinical vignette.
