

PPCP Committee Minutes 1-26-2022

Present: Charles Ashbach, Karen Fraley, Matthew Rosa, Kelly Seim and Suzanne St. John

1. December 2021 minutes approved.

2. Feedback was provided within the last GAM group regarding the program. The following is a summary:

a. students expressed the desired for further in depth participant discussion of their vignettes and to have an experience of given a second vignette with the same supervisee and patient in order to track supervision progress as a result of program learning. This opinion came about as a result a faculty's second vignette with the same supervisee and patient.

b. more GAM groups were desired and therefore this would create a program of longer duration.

3. Matthew and Karen each sent an article for the committee to review.

4. Next committee meeting is Wednesday, February 23rd.

Respectfully Submitted,

Suzanne St. John
